Why Choose Us?

Established in 1936, we're now in our fourth generation of helping people and organizations find the best insurance value and service available.

1

we're true value hunters, and after 80 years we've gotten pretty good

2

we're independent, so we're uniquely positioned to be on your side

We work with over 20 insurance companies and comb through thousands of policies to make sure you get the most value when helping you choose a solution.

3

we don't work for the insurance companies, we work for you

Sometimes bad things happen and we stick by you when you need us most to make sure you receive a fair and prompt settlement.
